

Ambu® Reusable PEEP 10 & 20 Valves

DATASHEET

The Ambu® Reusable PEEP 10 & 20 valves are designed to provide PEEP when used in conjunction with manual resuscitators, ventilators, anaesthesia machines and CPAP systems. Both Ambu® Reusable PEEP valves are available in two sizes based on the size of the connector; a 30 mm connector or a 22 mm connector. The Ambu® Reusable PEEP valves are designated as MR Unsafe.

The Ambu® Reusable PEEP 10 Valve is adjustable, meaning it can be used to provide PEEP ranging between 0 - 10 cmH₂O. The Ambu® Reusable PEEP 20 Valve can also be adjusted to provide PEEP ranging between 1.5 - 20 cmH₂O. Being completely adjustable allows for the Ambu® Reusable PEEP Valves to be used to apply a specific amount of PEEP to suit patient requirements.

After use, the Ambu® Reusable PEEP Valves are suitable for both manual and automated cleaning, disinfection and sterilisation. They are also capable of being sterilised at a temperature of 134 °C, and can be reprocessed up to 30 times.
